SQUADRON'S PRESENCE.

Press of Tokio Comments Upon the Matter Vigorously.

Tokio, April 19.—Discussing the presence of the vessels of the Russian Second Pacific Squadron at Kamranh Bay, on the east coast of French Indo-China, the Jiji Shimo declares that the use of the Island of Madagascar by the Russian squadron was a direct and prolonged violation of the principle of neutrality, but on account of the distance Japan in that instance simply lodged a protest. The paper, however, insists that Russia is now using Kamranh Bay as a base for action against her opponent and says she intends to use it as a point for effecting a junction with the remaining division of the squadron.

"If the use of Kamranh Bay is continued," the Jiji Shimo adds, "Japan must regard its neutrality as completely ignored and Japan will not be obliged to respect its neutrality." The Jiji Shimo further declares that France is lending the Russians efficient assistance, thus actually joining issue with Russia against Japan, and that it is now necessary for Japan to notify Great Britain and obtain her co-operation according to the terms of the Anglo-Japanese alliance. "Protests," the paper asserts, "are unavailing. The time for action has come."

BEAR AND A BOBCAT.

Chief Executive Succeeds in Bagging Couple of Varmints.

PRESIDENT PLEASED.

One of the First to Arise and Sit Down to Breakfast With an Appetite That a Dyspeptic Might Envy.

Glenwood Springs, Colo., April 19.—Information from President Roosevelt's camp says he has killed a bear and a bobcat. He is satisfied with his hunt for the biggest game the Rockies afford. If he gets one more bear or several he will be highly pleased, but to quote his own words: "I got what I was after. It was a bully sport, and I hope it keeps up."

According to Courier Chapman, who has returned from the camp, the president is taking the true sportsman's delight in the rough life of the camp. He is one of the first to be stirring in the morning, and always the first to sit down to breakfast. The fare seems to suit him, although he has said several times he would be as well pleased if it were less pretentious. His idea of camp life is one kind of meat at each meal, and that fried, vegetables of the canned variety, coffee made over an open fire and the smell of smoke in everything that is cooked. Thought of starting home apparently has not occurred to the president.

SIX HUNDRED PRESENT.

Paper of Dr. Ambler Was the Leading Feature of Tuesday.

Atlanta, Ga., April 19.—Increased attendance and largely increased attendance marked the second day's proceedings of the American Anti-tuberculosis league here Tuesday. Late arrivals brought the attendance up to about 600 physicians, which includes a large number of women practitioners. The general subject considered at the only session of the convention of the convention was the treatment of tuberculosis in its various forms. The paper of the day which was accorded the closest attention was by Dr. C. P. Ambler of Asheville, N. C., on "The Physicians' Permanent Duty to the Patient and Family in Tuberculosis." At the conclusion of the paper the convention, by unanimous vote, authorized the publication of the paper as embodying the sense of the league on the subject. Dr. Ambler, in the course of an address, said:

"I wish to place myself on record as advocating that the best means of preventing consumption is to discover the tuberculosis disease in the patient before the stage of consumption has been reached. Consumptives are persons dying with a tuberculosis disease. Tuberculosis is not the fatal disease that past generations have regarded it."

The latter part of the day was devoted to a Georgia barbecue, which was attended by several hundred of the doctors.

In transportation by way of Panama, particularly in the matter of transportation of canal supplies and transportation of commercial freight to all points on the Pacific coast of the United States, Central and South America. It was explained to Mr. Bristow that the board of trade especially desired an opportunity to bid on all contracts of the government and then to have equal transportation facilities with New York, even if transports of the government have to be put in service between New Orleans and the Isthmus. Mr. Bristow will visit other gulf ports on his present trip.

TOGO'S PLANS.

Hayashi Says Japanese Admiral Will Continue Cautious Tactics.

London, April 19.—Baron Hayashi, the Japanese minister to Great Britain, expressed the opinion to the Associated Press that Admiral Togo would not give battle to Rostovsky with his entire squadron, but would continue the cautious tactics which characterized his attacks on the Port Arthur, not because he feared defeat, but owing to his desire to inflict the greatest amount of damage on the Russians with the least loss to himself. While confident of his ability to accomplish the total destruction of the Russian squadron in a big battle, there is the danger of Togo losing one or two of his big ships. Therefore, Baron Hayashi believes Togo will employ his torpedo boats and torpedoblast destroyers which number more than 100, and are vastly superior to the Russian torpedo boat flotilla, in harassing the Russian warships. He said the coasts of Japan, Korea and Formosa lend themselves to night work with torpedo boats, while the narrow channels will make the maneuvering of large warships difficult and dangerous.

CABLE CUT.

Sixteen Japanese Cruisers and Torpedo Boat Destroyers Scouting.

London, April 19.—The Daily Mail's correspondent at Singapore learns that Russian agents have cut the cable between Foo Chow and Formosa.

A dispatch to the Daily Mail dated Manila, April 18, says: "This morning sixteen Japanese cruisers and torpedo boat destroyers were scouting off Sualpale point."

No Legal Obstacles.

Paris, April 19.—Concerning the statement in an Associated Press dispatch from Tokio that the international status of the waters of Kamranh Bay might determine the question of Admiral Togo attacking the Russians there, the opinion prevails here that there are no international obstacles to prevent the Japanese adopting such tactics as their naval situation requires.

TERRORIST ARRESTS.

Interesting Details of the Capture of a Band.

WOMEN IMPLICATED.

To Kashovsky, the Celebrated Russian Detective, Is Due the Credit of Catching One Dozen Members of a Group.

St. Petersburg, April 19.—Gradually many interesting details surrounding the recent arrest of a band of about a dozen terrorists are leaking out. The capture, which is regarded as a feat of immense importance, was accomplished by Kashovsky, the Russian Lecoq, who was dismissed from the secret police service years ago on account of his connection with Philippe, a spiritualist, who created such a stir at court several years ago, and who, too, went to Paris to live. General Trepoff, upon his appointment as governor general of St. Petersburg, induced Kashovsky to return to St. Petersburg, and within two weeks the detective captured the entire band, which had been operating here under the direction of a central organization, which apparently had its headquarters in Switzerland. Alfred Henry McCullough, the man killed March 11 by the accidental explosion of a bomb at Hotel Bristol, whose real name was Bauman, was one of the chiefs of the terrorists, having charge of the manufacture of bombs, and Kalieff, who killed Grand Duke Sergius, also belonged to the same group. After Bauman's death Kalieff's duties devolved upon Mlle Leontieff, daughter of General Leontieff, who was recently appointed governor general of Yakutsk, eastern Siberia. Mlle Leontieff became a convert to terrorism during her stay at Lucerne, Switzerland. Kalieff's identity was established through the discovery of a photograph belonging to Savinkoff, who had been his comrade, both at the university and in exile. When Kalieff was charged with complicity he admitted it, saying immediately: "Savinkoff has been arrested." The police later thought they captured Savinkoff and so announced publicly, but it turns out that the man held under that name is another, and Savinkoff, to whom Kalieff had evidently confided his intention of killing Grand Duke Sergius, were still safe abroad.

Among others captured was Madame Ivanovskaya, sister-in-law of Korolenko, the Russian author. She was involved in the nihilist plot to assassinate Emperor Alexander II, for which she was sentenced to fifteen years in Siberia, but at the end of seven years escaped to America.

Perhaps the most romantic feature is the fact that Mlle Leontieff converted two nieces of Governor General Trepoff, Mlle Trepoff and Princess Denishoff, to the doctrine of assassination, and that after the arrest of her mentor Mlle Trepoff actually attempted the life of her uncle, firing two shots at him, both of which missed. Thereupon the two girls became panic-stricken and attempted to suicide. Mlle Trepoff throwing herself under a train and Princess Denishoff shooting herself. Neither of them succeeded. The family since has tried to make it appear that the girls' acts were the result of a mutual pact for self-destruction, both being in love with the same man, an officer of the guards.

About 100 male and female students of the Conservatory of Music, who have been connected with the agitation in favor of Rimsky Korsakoff, who was removed from a professorship in the conservatory because of his attitude toward the striking students, have been arrested and sentenced to a month's imprisonment.

Sukom-Kale, Russia, April 19.—In spite of the efforts of the police to prevent it, land owners of Kutais held a meeting here and adopted a strongly worded resolution calling for the immediate convocation of the zemsky sabor and endorsing rest of Liberal programme.
